10 kw solar inverter price

The Fox ESS G-Series inverters range from 7.0-10.5kW, are IP65 rated and are designed to be easy to install. This Inverter offers excellent efficiency and performance thanks to a wide MPPT voltage range which allows for more energy harvesting.

The Fox G10 10kW inverter is supplied with a Fox WiFi Datalogging Stick for use with the Fox Cloud. Fox LAN and 4G dataloggers are also available as optional add-ons if you prefer an alternative connection.

The G-Series inverters incorporate a unique heat-sink and cooling fin design; this is integrated into the inverter casing to ensure optimal contact with heat generating components. It uses a star design on the cooling fin, creating a larger surface area and increasing the cooling effect.

When combined with an AC-Coupled Battery Storage system, this Fox ESS G-Series inverter can feed excess solar energy into your batteries. It works with any manufacturer in this setup.

The Fox G10 10.0kW Solar Inverter is designed to be easy to install to help save you time on installation. Flexible configuration, plug & play setup, built-in fuse protection.

Note to end users: Can end-users purchase this product to save money on the cost of a replacement inverter? Yes, of course! Simply purchase the inverter and arrange for a local qualified electrician to install the unit for you (should be a 1-2 hour call-out). By sourcing the inverter yourself, you can make a huge saving on the prices quoted by installation companies for supply and fit services.

The Fox LAN Monitoring Stick is a simple, external plug-in device, which is fully universal across the Fox ESS inverter range. The LAN stick should be used in place of the standard WiFi dongle if a wired connection from the Inverter to the Router is required.

The Smart L3.0 is an intelligent LAN enabled device allowing you to monitor the status and performance of your Fox ESS PV system via the Fox ESS Cloud remote monitoring platform. The Smart L3.0 is ideal in situations where there is no reliable WiFi or GPRS connection available.

The all new Solis 1.5kW Mini S6 Series grid-tie solar inverter has a compact and lightweight design for easy installation. It is fan-less and therefore produces minimal noise (less than 20 dBA.)

For monitoring you can add a WiFi Dongle which can be purchased [HERE](#) or by selecting the add-on below. This enables you to make use of the Solis Cloud Remote Monitoring Platform.

Solis Inverters come with a 5-year warranty as standard. This can optionally be extended to either 10-years or
