## 110 kWh energy storage battery suppliers

Current Energy Storage and ELM Fieldsight have been partners in designing and developing Energy Storage Systems since 2016. Our partnership today extends through selling and marketing a broad range of BESS systems manufactured by ELM. Contact us today for more details.

With three capacity options of 96kWh, 100kWh, and 110kWh, BSLBATT ESS-BATT Cubincon series is a solar battery storage system designed for industrial and commercial applications. It effectively supports community solar systems, rural microgrids, hospitals, schools, and small manufacturers. In addition, ESS-BATT Cubincon series uses high-performance lithium iron phosphate (LiFePO<sub>4</sub>) batteries and a shock-resistant protective housing to ensure durability and longevity in extreme environments.

The smart BMS can monitor battery operating status in real time and integrates a variety of safety features, including overcharge and deep discharge protection, voltage and temperature observation, overcurrent protection, cell monitoring and balancing, and overheating protection.

BSLBATT APP & Cloud Platform offer dynamic power flow and generation reports with real-time monitoring, comprehensive visualization, multi-terminal compatibility, remote OTA upgrades, integrated after-sales service, and robust backup functions with data encryption to reduce maintenance costs and enhance security.

BSLBATT technical team has more than ten years of experience in the lithium battery industry, providing you with the most professional pre-sales as well as after-sales service. In addition, BSLBATT has branches in the United States, the Netherlands, Japan, Mexico and other places, and strives to develop a comprehensive global layout.
