A 21700 battery refers to a specific type of lithium-ion rechargeable battery cell. The designation “21700” indicates its dimensions, with a diameter of 21mm and a height of 70mm. These 21700 battery cells are widely used in various applications. These include electric vehicles, portable electronics, and renewable energy systems. Compared with 18650, 21700 batteries have a larger size, higher capacity, and better power output. They are suitable for high-performance applications, providing increased energy density.

Legend Battery is a leading 21700 battery supplier. We provide high-performance and high energy-density battery solutions. Our 21700 cells are mainly from Samsung, LG, Panasonic, Murata, and Molicel. When designing 21700 battery packs, our engineering team mainly chose these brands. More than 1 million PCS 21700 cells are assembled monthly in our manufacturing center. So, if you are looking for the 21700 battery bulk, please Send us an email.

We offer the 100% genuine 21700 battery wholesale at the most competitive prices in the market. These brands include Molicel, Samsung, LG, Panasonic, and Murata/Sony. Our commitment is to provide customers with high-quality batteries while ensuring reasonable prices.
