

290 kWh solar cell

290 kWh solar cell

With its top performance and completely black design the new Q.PEAK BLK-G4.1 is the ideal solution for all residential rooftop applications thanks to its innovative cell technology Q.ANTUM. The world-record cell design was developed to achieve the best performance under real conditions – even with low radiation intensity and on clear, hot summer days.

Solaris is a leading online solar energy supply store serving American homeowners and businesses. We design and supply quality Solar Power Kits, both preconfigured and custom tailored for your needs. Our wholesale pricing reflects the relationships we carry with the manufacturers we stock, ensuring the best deals for our customers.

We carry everything you need for your grid-tied or off-grid system, including plans, permits and diagrams. Our Solar Panels, Inverters, Racking and Mounting are second to none in quality, reliability, efficiency and lifespan. When going solar with us, we help you every step of the way in sourcing the products that matter for your investment.

Solaris is a leading online solar energy supply store. Since our inception, we have steadily grown to become one of the most robust solar energy dealers nationwide. We provide a large variety of products, custom designed solar electric systems, and superb technical support throughout your installation.

Solaris-shop designs, supplies, and delivers complete solar energy systems for homeowners, and installers. We use only the highest rated manufacturers in our design layouts, customized for your specific needs and requirements. We have a commitment to excellence for our valued customers, offering wholesale pricing that ensures a powerful return on your investment, for years to come.

Add the beauty of all black solar to your home. Seamless in appearance, Silfab's sleek all black SLA290M features black cells, frame and backsheet to provide a solar array as good looking as the house under it.

Glass with internal pyramid structure for higher production at low radiation intensities (sunset, sunrise, winter). An anti-reflective glass coating reduces glare to increase the amount of sunlight converted to electricity.

When you invest in Silfab modules, you're not just getting maximum power density and long-term reliability, you are also getting premium quality modules with one of the most trusted warranty programs in the industry. Silfab's fully-automated manufacturing facility ensures precision engineering is applied at every stage. Superior reliability and performance combine to produce one of the highest quality modules with the lowest defect rate in the industry.

290 kWh solar cell

Ensuring that solar modules perform for 25 years requires high-quality components and manufacturing. Silfab modules, manufactured in their fully automated facility, deliver you the highest quality modules made in North America.

Product: ULC ORD C1703, UL 1703, IEC 61215, IEC 61730, IEC 61701, CEC listed, IEC 62716 Ammonia Corrosion, IEC 61701:2011 Salt Mist Corrosion, FESC listed UL Fire Rating: Type 2 (Type 1 on request)
Factory: ISO9001 2015
