KINREECELL is a brand manufacturer specialising in rechargeable batteries. Since its inception, the company has been committed to providing consumers with powerful and long-lasting rechargeable batteries.

Low self-discharge technology ensures optimal battery performance and longer battery life. It can be recharged with a solar light (with sufficient sunlight) or a household battery. In addition, each battery has a capacity of 1,000 mAh, so every battery you receive has a qualified capacity.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyses reviews to verify trustworthiness.
