

3 phase hybrid inverter

3 phase hybrid inverter

Experience the power of the X3-HYBRID G2 inverter from SolaX, offering a flexible and scalable solution for both domestic and commercial applications. With sizes ranging from 5 to 10kW and the ability to install multiple inverters in parallel, it provides versatility and expandability for your energy needs. Benefit from the EPS function for emergency power supply, multiple communication options, and remote control capabilities. Elevate your energy system with the X-HYBRID 3-phase inverter, revolutionizing your local energy journey.

With a GivEnergy system, you're not just getting dumb battery assets. You're getting a smart EaaS package that allows you to manage, monitor, and optimise your home energy through world-class software.

Despite its whopping power rating, the 20kW hybrid inverter can be installed without prior DNO permission. That's because it only outputs 3.68kW per phase, making it a G98 device. Even easier to install!
