

410 kWh battery

410 kWh battery

The Grape Solar 410-Watt High Efficiency Monocrystalline PV Solar Panels use high efficiency solar cells made from quality silicon material for high module conversion efficiency, long-term output stability and reliability. Virtually maintenance free. High transmittance, low iron tempered glass for durability and enhanced impact resistance.

So far so good. Very impressed with the batteries. I went 30 hours and only down to 50%. Charged back fast too. The old batteries would do 18 hours and took up more space.---- David

Added two of these for my house solar. Everything from talking to the sales and customer service was absolutely phenomenal. Quick shipping and again the customer service was awesome. You just don't get this kinda service anymore. It's a huge relief dealing with such a professional company. I will be adding more lithium and this is where I'm staying. Redodo is my source! Beyond pleased!---- Capt Kevin

Regarding the charger, we recommend battery charger that supports LiFePO4 battery charging. To fully charge the battery, the DC charging voltage should be between 14.2V~14.6V, and charging current less than 100A. And we usually recommend 0.2C charging current, that is 40A charging current and it will cost around 5hrs to full charged it.

It is recommended to store Redodo LiFePO4 batteries at 50% state of charge (SOC). If the batteries are stored for long periods, cycle the batteries at least every 6 months. Recommended storage environment: 10?~35? (50?~95?), 45%RH~75%RH.

Yes, Redodo 12V deep cycle lithium batteries can be connected in series up to four units, forming a 48V battery system. Note: DO NOT connect batteries of different chemistries in series or parallel.

Our Team injects passion, integrity, respect, and professionalism into our LiFePO4 batteries and business, if you have any questions, please feel free to contact us, we love to help.

We inject passion, integrity, respect, and professionalism into our LiFePO4 batteries, we hope that Redodo LiFePO4 battery not only power for you, but also bright your life with our excellent customer service. We are here to help:
