

420 kWh solar lithium battery inverter set

420 kWh solar lithium battery inverter set

If you happen to find a lower price for the same product, we will guarantee to match their price or beat their price. Note, this does not apply to all products in the store. Please reach out to us via email or chat if you want a price match or price beat.

At OffGrid Living Solutions, we are proud to have the best refund and return policies in the industry. If you're not satisfied with your purchase for any reason, you may return it to us within 30 days for a refund.

If you have a problem with our order (there are missing components, damages, or the product is not functioning), please reach out to us as quickly as possible. Some of the problems can be resolved by going through the product manual or the product FAQs.

Once we receive your order, we will send you a confirmation email. Then we will process the order by confirming that the product is in stock and ready for shipment. If any of the items in your order are back-ordered, we will reach to you via email or phone and you may choose to either wait or receive a 100% refund.

Before you sign the shipping bill, please **THOROUGHLY INSPECT YOUR ITEM**. Signing for the receipt of a damaged product removes the liability of the shipping company and OffGrid Living Solutions. Once you accept your shipment as non-damage, your item is your property.

An advanced LiFePO4 solution designed to enhance your off-grid, emergency, or even worksite power supply. Whether you want to simply upgrade your power system or equip yourself with a battery for backup energy, the **MUSTANG** is the perfect choice.

With impressive energy density, the **MUSTANG** is one of our top models, fitting 7kWh in a sleek steel casing. It's carefully designed to make the most of your power system, accommodating various demands no matter where you're headed.

But the **MUSTANG** isn't just about power. It's also about safety and reliability, giving you peace of mind on your journeys. Using Grade A Razor cells - known as the safest lithium cells - the **MUSTANG** can handle punctures without emitting fumes or catching fire. And that's not all. The battery has our special Beyond BMS, an advanced battery management system with triple safety redundancy. It includes protections like Short Circuit, Over Current, Over/Under Voltage, and Over/Under Temperature safeguards.

At BatteryEVO, we stand behind the quality and durability of our batteries with our 10-Year Warranty. We ensure that every BatteryEVO battery is free from defects in material and workmanship for a period of 10 years from the date of purchase. Here's what our warranty includes:

420 kWh solar lithium battery inverter set

Free Repair & Replacement: Our batteries are engineered to last for a minimum of 10 years, and we back this up with our warranty. In the unlikely event of any component failure or manufacturing defect within the next 10 years, we will repair or replace your battery free of charge. For the first year, we even cover all shipping costs to and from your purchase address within the continental US.

Assured Highest Quality: BatteryEVO exclusively uses Tier 1 cells, ensuring top-notch lithium battery packs in the USA. Our batteries are designed to last between 3,500 and 8,000 cycles, depending on the specific model, usage scenario, and environmental factors.

Product Manuals & Specification Sheets: Each BatteryEVO battery features a unique QR code. Scanning it with your smartphone provides access to the Product Manual and Product Spec Sheet specific to your battery model, ensuring you have up-to-date product information.
