

430 kWh battery pack

430 kWh battery pack

Namkoo commercial solar storage energy system include integrated PCS, EMS on-grid switching unit, power distribution unit, temperature control system, BMS system, fire protection system, anti-surge device, and more. The cabinet design allows for easy transportation. The product enables power output ranging from 100KW to 200KW, with a system capacity of 215KWH to 430KWH. It supports parallel connection of multiple machines and offers flexible expansion capabilities.

The customized battery energy storage system uses lithium iron phosphate battery, and the capacity of the system can be flexibly customized according to customer requirements. The battery and PCS, system specified by the customer can be used. The product integrates local EMS, fire control, air-conditioning and other sub-systems, providing customers with a safe and flexible choice of battery energy storage system.

Namkoo is a global provider of one-stop solar energy storage solutions. After 18 years of development, Namkoo now has a battery manufacturing plant and 30+ R&D energy storage product research and development personnel, and is committed to designing and providing customers with household, industrial, commercial and public energy storage systems that meet customer needs.
