

45 kWh energy storage battery installation

45 kWh energy storage battery installation

"The SolaX home battery is amazing! During a recent power outage, it kicked in flawlessly, keeping my essential appliances running without a hitch. Setting it up was pretty easy too.. It integrated with my home system without any issues. It feels great to be more energy-independent and not worry about power outages anymore."

"I wanted to install my own battery system and no one would help me, except Emporia! They supported me and answered all my questions along the way. Thanks Emporia"

"Your team was very good at making sure I understood the system and was consistent about leaving the yard spot free of debris. Great job and they deserve kudos on a job well done!"

"This battery rocks. It stores our excess solar generation so we can use it during expensive peak times when we come home from work! We're seeing real savings every month!"

As of 2023, solar and battery storage technology are considered qualified expenses under the Residential Clean Energy Credit. If you are eligible, it is Emporia's opinion that the calculation for the 30% federal tax credit combined with other incentives are as follows:(Total Project Cost - Other Incentives) * 30% = Eligible Tax Credit

15kWh battery | \$3,825 max rebate (4.5kW for 3 hours at \$850/kW) 20kWh battery | \$5,100 max rebate (6kW for 3 hours at \$850/kW) 30kWh battery | \$7,650 max rebate (9kW for 3 hours at \$850/kW) 40kWh battery | \$10,200 max rebate (12kW for 3 hours at \$850/kW) 45kWh battery | \$10,500 max rebate (12.35kW for 3 hours at \$850/kW) 60kWh battery | \$10,500 max rebate (12.35kW for 3 hours at \$850/kW) 80kWh battery | \$10,500 max rebate (12.35kW for 3 hours at \$850/kW)

Solar: 25 year manufacturers warranty Batteries: 12 year manufacturer's warranty with the option to extend to 15 years Workmanship: Included but varies slightly by installation partner.
