5kw mppt solar inverter

The SPF is an off-grid solar inverter that works with solar panels at high voltage. The operating windows start from 120V and up to 450V. A healthy system should operate between 300-350V to produce enough usable energy or even for running without batteries. The minimum recommendation is 6 solar panels 300-500W each.

Fox is a global leader in the development of inverter and energy storage solutions. Engineered by some of the world's leading inverter and battery experts, Fox products are breaking new ground; offering customers the most advanced product features currently available, coupled with unrivalled performance and reliability.
