

5kw power inverter

5kw power inverter

5000W 48V is a REAL Hybrid Solar Inverter with multi-function, 80A MPPT solar charger controller built-in, Pure sine wave, High frequency, Off Grid & OnGrid Solar Inverter, with WiFi & LCD, with Parallel function, can feed the grid.

NOTE 1: 5KW Hybrid MPPT Solar Inverter SolarPolo Series is a wide voltage Hybrid inverter. Solar panel input voltage must be higher than 120V so that can start up the solar inverter to work. NOTE 2: 5KW Hybrid MPPT Solar Inverter SolarPolo Series supports the WIFI function, and have Built-in WIFI (Requires APP) NOTE 3: 5KW Hybrid MPPT Solar Inverter SolarPolo Series has parallel function but customer have to buy parallel kit separately.

Sankopower Solar System are very professional and reliable manufacturer for solar inverter. With more than 26 years in solar inverter production, we are full of experience in handling after sales service and customer complaint.

SRP three phase solar power inverter ranging from 5kW to 10kW, provides flexibility, efficiency, and reliability in managing energy systems, making it a sustainable solution for industrial and commercial.

The hybrid solar inverter 5kW is ideal for homes or small businesses with moderate electricity needs. 10kW 3 phase hybrid inverter is suitable for larger homes or small to medium sized businesses with higher energy demands.

The Three Phase Solar Hybrid Inverter 5K/10K has a maximum efficiency of 98%. This high efficiency ensures that almost all the solar energy captured is converted into usable electricity with minimal losses. It also meets European efficiency standards, guaranteeing reliable performance across diverse conditions.

The three phase hybrid inverter is designed with IP65/66 protection, making it highly resistant to dust, water, and harsh weather conditions. This reliable protection ensures whether it is installed indoors or outdoors. In addition, the advanced cooling system helps maintain stable performance even under high loads and extreme temperatures, ranging from -25°C to 60°C.

The three phase solar power inverter is ideal for larger residential and commercial installations. Its ability to provide backup power during grid outages makes it a versatile choice for ensuring continuous operation in critical applications. Hybrid Solar Inverter 5K/10K supports seamless integration of solar energy with existing power systems, enhancing energy independence and resilience.

5kw power inverter

5500VA/5500W Solar Inverter, Off-Grid Solar Inverter, 100A MPPT Built in, 500VDC PV Input 220VAC 48V. This 5500W MPPT Solar Inverter SolarPro Series is a multi-function solar inverter/solar charger, combining functions of inverter, MPPT solar charger and battery charger to offer uninterruptible power support with portable size. It is perfect backup power supply for off-grid system like household appliances, power tools, industrial equipment, and electronic audio and video equipment.
