

Aes clean energy

Aes clean energy

When you view energy as a strategic asset, that's when you'll make the greatest impact to your business goals and toward a sustainable future. We partner with organizations of every kind, across the globe and at every stage of development to help them transform and build competitive advantages as leaders in their industries.

Every day, energy users across all industries are expected to make meaningful progress toward sustainability commitments. No organization needs to figure this out alone. Whether your goal is to diversify your energy portfolio with cleaner energy, reduce carbon emissions, or make energy supply more reliable across your operations, we'll partner with you to secure the best sustainability opportunities for you while strengthening your overall business.

Your clean energy journey is unique as you navigate the best path toward achieving ambitious sustainability goals. Together, we'll develop the new renewable energy solutions you need and elevate your position as a leader of the future.

While you focus on becoming the best in your industry, we provide quality access to cleaner energy and put data to work for you through our next-generation platforms. We develop partnerships, connect you to the insights that matter most, and consolidate all the complicated pieces of your energy portfolio to give you the visibility and control that you need to optimize your business.

E-Everything solutions seek to convert difficult to decarbonize sectors to clean electricity. Emerging technologies such as green hydrogen, synthetic fuels and electric vehicles (EVs) play a critical role in realizing a fully electrified future.

Your clean energy journey is unique as you navigate the best path toward achieving ambitious sustainability goals. Together, we'll develop the new renewable energy solutions you need and elevate your position as a leader of the future.

New renewable energy is your unique contribution to a carbon free grid. We help you develop and scale your renewable energy supply faster with solar, wind and energy storage to maximize the impact of your sustainability and business goals.

Give your customers, employees and communities confidence in your carbon free pledge. We work with you to develop a holistic energy strategy and implement a tailored portfolio to run on 24/7 carbon-free energy, hour-by-hour guaranteed.

Your energy transformation shouldn't be constrained by existing contracts. Green Blend systematically refreshes conventional supply with clean energy, customized to ensure the reliability and sustainability of your

ARLINGTON, Va., Jan. 18, 2024 /PRNewswire/ -- The AES Corporation (NYSE: AES) announced the completion of 3.5 GW of renewables projects in 2023, nearly doubling the capacity constructed compared to 2022.

"In 2023, AES completed the construction of 3.5 GW of new renewables. This construction milestone represents a new record and a growth rate of nearly 100% over 2022. Including these newly added projects, AES' portfolio of renewables now reaches 18.4 GW," said Andr's Gluski, AES President and Chief Executive Officer.
