

Amsterdam energy storage industry

GESA is a company operating a Class 1 storage and blending facility for gasoline, gasoline components, and bio fuels with c.300,000m³ gross capacity across 20 storage tanks located in the Port of Amsterdam, the Netherlands. This terminal is very flexible. As well as gasoline, gasoline components and bio fuels, it can also handle naphtha, gas oil, heating oil, and/or diesel.

GES is aware of the existence of websites falsely claiming association with GES or presenting themselves as (a subsidiary of) GES. GES has no control over the nature, content and availability of those websites. GES only has one official website: <https://> Please be aware that any other website claiming to be (affiliated with) GES may be fraudulent. Visitors are advised to exercise caution and verify the authenticity of any such claims.

GES expressly denies any responsibility or liability for any loss or damage, including without limitation indirect or consequential loss or damage, or any loss or damage whatsoever arising from loss of data or profits out of, or in connection with, the use of such fraudulent websites. GES cannot be held liable for any consequences arising from or in connection to the fraudulent websites.

Please be warned that a fraudulent website may offer or is involved with Storage Spoofing. For more information on Storage Spoofing, and how to identify and report false representations, please visit our dedicated page.

More recently, he was a Senior VP for international trade at TNK-BP and, for eight years, Chairman of Puma Energy. In addition to his role with GES, Graham is also a Senior Advisor to Oliver Wyman and is an active investor in the renewable energy sector, having sat on the board of a number of successful start-ups.
