

Are gel batteries good for solar

Are gel batteries good for solar

It allow up to 1500 cycles at 50% DoD, which is excellent for regular off-grid usage. Plus, if you don't mind losing half of your recharging cycles, you can still achieve 750 cycles at 80% DoD.

The dimensions listed are the maximum dimensions in every dimension, so we recommend before ordering, to make yourself a cardboard template to see how it will fit in with the rest of your wiring.

If you're fairly new to the world of leisure batteries and still deciding what kind of battery you need, then our leisure battery guide should provide a basic understanding of the different batteries available, so that you can make an informed choice for your purchase.

Due to courier restrictions on batteries, delivery is only available to mainland UK addresses. Batteries are always delivered by a specialist courier. As a result, they are shipped separately to the rest of your order and delivery will take up to 3-4 working days.

The warranty period for this battery is listed in the specification section and covers premature failure due to manufacturing or material defects only. Please read the warranty section below for full details on what is covered.

All leisure batteries sold at Kiravans are manufactured to high standards and come with a warranty. The warranty period for each battery is different and listed in the product description. You don't need to register your warranty.

Batteries are guaranteed against premature failure due to manufacturing or material defects only. In the event of such battery failure our Customer Service team will help resolve any unlikely issues promptly.

In the event of a warranty claim, all batteries are to be returned to us and we will arrange to have the battery tested. This is the responsibility of the customer not Kiravans.

We can provide a collection service at the current courier's rate. Please get in touch for the cost of this. Should your battery be found faulty, the cost will be reimbursed to you and a replacement battery sent.

So provided the right battery is used in the right application, the chances of you having a battery problem will be minimal. All batteries have a finite lifespan which is governed by the conditions under which the battery operates.

Our "No Quibble" Promise: Kiravans provide a comprehensive Returns Policy. We don't believe anyone else in our industry comes close to offering the same promise. Would you believe we dont even have a 400 word

Are gel batteries good for solar

returns policy? It's just 2 words; No Quibbles. Thats it. We treat our customers with respect and we hope that you trust us in return.

Fantastic Customer Service: It's in Kiravans DNA. As a bunch of enthusiastic, professional Yorkshire people (and 1 Scotsman living in Munich!), our customer service team have a straight forward approach to problem solving. If you have a question or need advice, we're here to help. Just give us a call on 01535 661 273 or use the live chat button. If we know the answer we'll tell you, if not we'll find out out for you.
