

Backup power system 8 kWh

Backup power system 8 kWh

Don't be left in the dark. Use our DC Coupled 8 Kw Home Battery Backup Kit - Emergency Power System with 13 kWh Storage to maintain power during emergency power outages and for off-grid applications.

Our Scalable Battery Backup Systems can be customized from 4 kW to 80 kW to meet your specific needs. Each battery backup power kit includes a Schneider or Outback inverter with Discover, SimpliPhi, or VRLA batteries housed inside our NEMA enclosures.

We will include all the components and expertise you need to experience a seamless transition from grid to battery backup power when faced with fire, hurricane or other emergency situations.

As a major solar distributor we sell products to both retailers (who resell our products) and end-users. We rely on our retailers to provide our products in small quantities to individual customers.
