

Batteries recycling laws

Beyondly provide an efficient, bespoke way to fulfil your packaging obligation. As your dedicated compliance partner, Beyondly will help you root packaging regulations into your business, acting as a committed extension to your team.

I can't fault the level of service over the last 12 months while our business has gone through a number of changes, including the packaging compliance regulations. Beyondly has maintained exceptional levels of customer service making our packaging submissions as straightforward as possible, informing us throughout the process - a huge thanks to our account manager!

The complex requirements around packaging EPR data, is overwhelming. Beyondly's technical expertise will act as an extension to your business, providing high quality reporting and innovative insights.

Small Organisations are required to submit their "Placed on Market" data annually (data between 1 January - 31 December data to be submitted between 1 January - 1st April of the following year) and their Nation Data annually (data between 1 January 2024 - 31 December 2024, submitted by December 2025).
