

Battery pack 35 kWh

Battery pack 35 kWh

BMS: (1) Orion 02 Standard 96 Cell Kit
Charger: (1) Elcon 6.6 kW Charger with CAN DC-DC Converter: (1) 1500W Elcon DC-DC Converter
Display: (1) Andromeda EVIC
Cooling: (1) Performance Cooling Kit
J1772: (1) J1772 Inlet Hall Effect Pedal: (1) NGM Throttle Pedal Assembly
Braking kit: (1) Electric Braking Kit
Engineering: (3) Hours of Engineering Consultation
Optional Accessory Component Add-On:

Please note: Additional Accessories for the Lithium Block Battery (busbars, busbar covers, brackets, etc.) should be purchased separately once the final configuration is determined.

Car battery recycling - the key to sustainable development With the global emphasis on sustainable development, the recycling of car batteries, especially from lithium-ion battery company, has become a topic that cannot be ignored. Car batteries, particularly lead-acid and lithium-ion battery, contain a variety of harmful chemicals such as lead, cadmium, and lithium. If these

Global battery capacity will increase, while the EU slows down in 2030 The rapid rise of China's electric vehicle and battery industries is attracting widespread attention in the global market. In particular, in the EU, the EU has adopted new tariff measures in response to the impact of China's low-priced electric vehicles and the growth

Battery for key fob Replacement steps and precautions With the continuous development of automobile technology, cars are becoming more and more high-tech and intelligent, with automatic parking, automatic driving, keyless entry and other configurations. The car key battery is mainly used to power the radio transceiver on the key during use. When we press
