

Battery solar kit 95 kWh

Battery solar kit 95 kWh

The Pytes V5 LFP Battery is a cutting-edge lithium iron phosphate (LFP) battery designed to provide reliable and efficient energy storage for homes, small businesses, and more. With a nominal voltage of 51.2V and a capacity of 100Ah, it delivers 5.12kWh of energy to support your solar energy system, reducing reliance on the grid.

We offer scalable and versatile emergency backup power options including portable power stations you can carry from room to room or take on camping trips. This is a great solution for renters and folks who want to use backup power at home and away. Power electronic devices, charge phones, run your refrigerator, connect to the Wi-Fi, power lights and more--even when grid power goes down.

Interested in a more robust backup power solution? Our Haven 10 ecosystem provides convenient, reliable emergency power and the ability to back up as many as 10 essential circuits in your home with automatic power switching. This system must be professionally installed and is a great option for homeowners.

Goal Zero was born from a belief that lack of resources should never limit human potential. We are inspired by a passion for adventure, respect for the planet, and a humanitarian heart and we believe we are inextricably connected to the communities, environment, and society to which we belong.

Together, the Yeti PRO 4000 and Tank PRO 4000 give you the Yeti PRO 8000, with 7,988 watt hours of power. When connected, the Yeti and Tank sync to act as one battery, providing long-lasting power that can run almost anything in your home.

Recharge your Yeti PRO 4000 quickly with 4 Boulder 200 Solar Panels. A combo built for the most power-hungry devices and appliances. Portable briefcase panels keep the Yeti PRO 4000 charged to power RVs, trailers, off-grid events, worksites, essential circuits in your home, and more for days on end.

Our durable and lightweight Ranger 300 panels will charge your Yeti PRO 4000 in an RV or at home. The Yeti PRO 4000 boasts a 3600-watt AC inverter, while four Ranger 300 Briefcase Panels (1200 Watts) provide a full recharge in as little as 4 hours of sun. Safely hunker down at home through storms or emergency outages.
