

Battery storage south ossetia

Battery storage south ossetia

Saft's nickel battery product ranges deliver highly reliable and efficient energy storage in off-grid schemes, from the point of production through transmission and distribution to consumption, and is ideal for Sub Saharan African and emerging economies across Asia, where much of this demand will come from.

Our cutting-edge, off-grid Ni-Cd battery technology store excess energy efficiently and safely for use when PV or wind generation is not possible. Saft nickel batteries are robust and enjoy high cycling capabilities, giving it long life and low to no maintenance needs, even when subjected to erratic charging conditions, extreme operating temperatures and humidity.

In accordance with the provisions of the personal data protection regulation, Saft Groupe SAS as data controller will process your data for the purposes of providing the services and for its legitimate interest. Any mandatory fields are marked with an asterisk.
