Canada lithium-iron-phosphate batteries lfp

The Renogy 170Ah 12 volt batteries are perfect for deep-cycle applications including cabins, solar/wind energy systems, UPS battery backups, telecommunication systems, medical equipment, and more. Unlike gel or lead-acid batteries, the Renogy LFP 12 volt batteries are safer, lighter, and more powerful with a long service and shelf life to boot. Invest in these sealed, maintenance-free 12 volt batteries for your off-grid system today!

K2 Energy Solutions (K2), a leading technology company, developing, manufacturing and selling advanced rechargeable lithium ion battery cells, packs and systems announced that it has been ranked NO. 79 in Inc. Magazine's list of fastest growing privately held US companies.

Welcome to the exciting world of K2 Energy! If you're looking to get involved in this rapidly expanding industry, you've come to the right place. Here at K2, we offer a variety of opportunities for partners worldwide. So, jump in and enjoy the ride!

At K2 Battery, our mission is to revolutionize the way the world harnesses energy. With over 16 years of expertise in pioneering LFP battery innovation, we are committed to driving a sustainable future for businesses and individuals alike. Our journey began with a vision to create cutting-edge lithium iron phosphate batteries that deliver unmatched performance and reliability.

Over three weeks of -35C to -55C temperatures, so cold that any exposed skin freezes in seconds, combined with heavy cloud and snow for days on end. K2 Energy cells continued to operate our solar run lights for over 18 hours of run time with limited sunlight, snow cover and -35C temperatures for over a month.
