Cost of solar panel installation in ghana

Brightest Homes offers expert solar panel installation in Ghana, designed to help you save up to 70% on energy bills and reduce your carbon footprint. We specialize in providing customized solutions that ensure energy independence and cost savings.

Solar panel installation paired with solar lithium batteries allows you to store excess energy for use at night, giving you full control over your energy usage. Enjoy backup power during grid outages and further reduce electricity costs.

The team at Brightest Homes has over 10 years of experience installing solar panels for residential and commercial usage. Our expert team has completed hundreds of solar PV panels installations for homes and businesses over the years, giving the power back to the people with massive savings on their energy bills.

Brightest Homes is a leading solar energy provider in Ghana, focused on helping Africans in the diaspora bring sustainable solar solutions to their homes in Ghana. Our UK-based company partners with certified engineers across Africa to deliver top-quality solar panel installations and home automation systems.

As a pioneering force in Africa's solar energy landscape, we are committed to ushering in a new era of sustainable power solutions and smart living. Our company stands as a testament to innovation, reliability, and a steadfast dedication to providing top-tier solar panels, battery storage installations, and home automation services for homes and businesses across Africa.

As a UK based company, we have partnered with carefully vetted Engineers across Africa to install our products sourced directly from manufacturers with whom we have been working for a number of years.

Tired of frequent power cuts? Brightest Homes offers residential solar installations in Ghana designed to meet the unique energy needs of your home. Our customized solar panel systems allow you to generate clean, renewable energy, reducing reliance on the grid while providing peace of mind with uninterrupted electricity.
