

Different types of solar cookers

Different types of solar cookers

In reality there are endless varieties and countless styles of solar cookers that have been made, and are continually being modified around the world. For our purposes though we will use the three main styles. These...

There are two types of solar cookers, that is: 1. Type 1 - Box Type - Heat Up In this type of cooker, heat gets reflected by a reflector into a box, and then the heat gets trapped by the top glass like a greenhouse...

1. Pay later: payment within 30 days of dispatch of your order without additional charges or interest (except for late payment or non-payment charges). 2. Interest-free payment in 3 or 4 instalments: the first instalment is paid when you place your order, and subsequent instalments are debited directly from your card. 3. Financing (up to 36 months): Depending on the country, payment in installments with interest is also possible.
