## Electric thermal storage heaters prices

To learn more about our limited time 0% financing offer, please call 800-279-SIEA (7432) or click the button below and we will reach out to you. San Isabel Electric must be your electric utility.

We've got you covered! Our low-cost electric thermal storage lifetime repair contract covers the cost of the trip, diagnosis, labor, and parts, forever, for new and existing members.

Our contract covers failed part replacements with genuine Steffes manufacturer parts. It includes trip, diagnosis, labor, and part costs. Once purchased, the contract will be attached to your service location. Note: Not for routine maintenance.

The time-of-day rate, also known as time-of-use or TOU, is a relatively simple concept. Rates are lower during hours when demand for electricity is low (off peak), but costs increase during hours when demand is high (on peak). During off-peak hours, member-owners signed up for the electric storage time-of-day program pay:

Electric thermal storage heaters are renowned for their exceptional reliability. It's not uncommon to find heaters that have been in use for more than 20 years! However, technology has made remarkable strides over the last couple of decades. Replacing and upgrading your aging ETS heater can result in significant cost savings. As a token of our appreciation, we offer our members a \$250 credit when they make the switch to a new ETS heater.

We're on a quest to find the oldest ETS heater out there! If you're the member who exchanges the oldest ETS unit for an upgraded one by the year's end, you'll not only enjoy the benefits of a new heater but also receive an extra \$250 bill credit. This bonus credit will be applied to your bill due in February of 2024.
