

Electricity avaru

Bigger isn't always better but when it comes to electricity companies size means stability. And isn't that what we all want? To be sure that the magic happens once we plug the power cord into the wall.

Your electricity consumption in an apartment is usually quite low and hence we recommend a fixed monthly price electricity contract for an apartment building, which in our case is called Kuukausisu00e4hku00f6 (Monthly electricity). You will always know the total of your electricity bill in advance, so there will be no nasty surprises.

Living in a detached house means that your electricity consumption is probably a little bit higher. That is why our newest electricity product Vu00e4lkky is the perfect option for you if you need an electricity contract for a detached house. It is a semi-fixed price contract, which you can influence yourself if you time your electricity consumption to quieter hours.

Other good electricity contract choices for detached houses are Mu00e4u00e4ru00e4aikainen Vu00e4lkky-su00e4hku00f6 (Fixed-term electricity) and Pu00f6rssisu00e4hku00f6 (Exchange electricity).

Living in a semi-detached house also means that your electricity consumption is probably a little bit higher than in an apartment. That is why our newest electricity product Vu00e4lkkyu00a0is the perfect choice for you. It has a semi-fixed price, which you can influence yourself if you time your electricity consumption to quieter hours.

Our team at Vu00e4re still remembers what it was like being a student - money might have been a little tight at times. That is why we recommend Kuukausisu00e4hku00f6 (Monthly electricity) for students. You know your electricity bill total in advance and can easily plan it according to your monthly budget.

We know that energy changes the world. That is why you can always choose green electricity (only produced with renewable energy sources) for any of our electricity contracts, starting only at +1u20ac/month!
