"The GlobalData platform is our go-to tool for intelligence services. GlobalData provides an easy way to access comprehensive intelligence data around multiple sectors, which essentially makes it a one-for-all intelligence platform, for tendering and approaching customers.

"COVID-19 has caused significant interference to our business and the COVID-19 intelligence from GlobalData has helped us reach better decisions around strategy. These two highlights have helped enormously to understand the projections into the future concerning our business units, we also utilise the project database to source new projects for Liebherr-Werk to use as an additional source to pitch for new

business."

Your daily news has saved me a lot of time and keeps me up-to-date with what is happening in the market, I like that you almost always have a link to the source origin. We also use your market data in our Strategic Business Process to support our business decisions. By having everything in one place on the Intelligence Center it has saved me a lot of time versus looking on different sources, the alert function also helps with this.

Having used several other market research companies, I find that GlobalData manages to provide that "difficult-to-get" market data that others can't, as well as very diverse and complete consumer surveys.
