

Electricity rates skopje

Distribution of electricity. According to the Decision of the Regulatory Commission for Energy and Water Services of the Republic of North Macedonia, the prices will apply starting from 01.01.2024.

The price for the electricity consumed in the low tariff is 1,7784 denars for kWh, regardless of the amount consumed. For the households, as a separate category of consumers, the total amount of electricity consumed in high tariff is divided into blocks of consumption, and each block has a different cost.

The Energy Regulatory Commission (RKE) announced today the new electricity prices that will be valid from January 1 next year. The price of the first tariff block will decrease by 4.11%, while the second will decrease by 2.95%.

If the share of fossil fuels in the total energy contents of used fuels is lower or equal to 15%, feed-in tariffs for electricity generated and delivered by biomass-fuelled thermal power plants

If the share of fossil fuels in the total energy contents of used fuels is lower or equal to 10%, feed-in tariffs for electricity generated and delivered by biogas-fuelled thermal power plants shall be
