

Electricity regulations tonga

(f) develop and recommend regulations establishing requirements for major electrical work, including maintenance or protection of submarine cables; (g) do all things necessary for the performance of its functions and the exercise of its powers under this Act or otherwise as it is entitled to do

The policy behind the electrical permit regime which has been in vogue in the Kingdom of Tonga since 1985, is Public Safety, in particular the prevention of death or injury to persons, or danger to property from electrical hazards.

These Guidelines are intended to assist project proponents and other stakeholders involved in new renewable electricity (RE) generation and new electricity infrastructure projects to meet Tongan and development partner land, environmental and social-impact legal requirements.

An Act to reform the Regulation of the Electricity Sector throughout the Kingdom and matters related thereto. Authors: Government of the Kingdom of Tonga. Publication Category: Legislation and regulation. Number of Pages:

Welcome to the official website of the Attorney General's Office of the Government of the Kingdom of Tonga, and the official legislative website for promulgation of the Laws of the Kingdom.

The Attorney General's Office provides legal services to His Majesty's Government and the people of the Kingdom in accordance with the Constitution of Tonga and the Laws of the Kingdom.

The Attorney General's Office role is based upon the accepted traditional functions of the Crown's Law Officers. Generally, these functions revolve around the following categories:

The release contains over 50 new features including smart phone and tablet compatibility, automatic legislation history tables, improved security, category column on most layouts, and a popup help system, to name just a few.

The Electricity Commission (Commission) was established and mandated to implement the enforcement actions and regulations made under the Act, carry out activities for concession contracts and licensing of electricians, develop and recommend regulations for standards for electrical safety, as well as the powers for a concessionaire, among others.
