

Emergency roadside ev charging cost

Emergency roadside ev charging cost

Luckily, there are some emerging emergency EV charging services that might find their way to you. Emergency Mobile EV Charging Systems. The emergence of EV high-speed charging systems might mean that roadside assistance providers can simply drive to your location and charge your vehicle.

EV owners can have reduced range anxiety knowing that these portable EV chargers can reach their stranded EV anywhere. The Roadie makes it possible for you to provide roadside service when EV drivers are in an emergency or need routine charging.

For instance, AAA now provides mobile electric vehicle charging in multiple cities at no extra cost to its members. Blink Charging is working with AAA and other emergency roadside assistance companies to expand the availability of mobile EV charging .

Whether due to a flat tire or some other mechanical failure, most people have been stranded on the side of the road at least once. When bad luck strikes, you can try to tackle the issue yourself, especially with something like a flat tire, but this often means embracing the hassle and possibly the elements. Or, you can call in the experts.

There's no gas tank to refuel in an all electric vehicle, so no jerry-can to save the day. If your EV battery runs out while out of the road, most companies will offer to tow the vehicle to the nearest charging station or dealership. That's a less than ideal situation for those who want to get back on the road as soon as possible. Fortunately, as EVs become more common on America's highways, roadside assistance services are rising to meet demand and offering new solutions for low batteries.

Rather than requesting a tow, you can ask for a charging truck. AAA now offers mobile electric vehicle charging in 15 cities across the country. The mobile charging service comes at no additional cost to AAA members and AAA is hoping to expand to more cities as demand grows. AAA also offers trip-planning apps to help drivers find chargers along their routes and is installing charging stations at many of their branch office locations.

A major player in the mobile vehicle charging game is SparkCharge. A success on Shark Tank, the charging-as-a-service company offers an app that allows drivers to schedule a charge, no matter where they are parked, and sells their DC fast charger, the SparkCharge Roadie, to companies looking for innovative ways to power their electric fleets.

Our Territory: AAA Northeast proudly serves members in Rhode Island, Massachusetts, the following counties in Connecticut: New Haven, Fairfield and Litchfield, and in New Hampshire: Salem, and in New Jersey: Essex, Morris, Union, Bergen, Hudson, and Passaic, and in New York: Long Island, in the five
