## Energizer aaa rechargeable batteries

Energizer aaa rechargeable batteries

The last line of defense, Personal Protective Clothing, sometimes known as Personal Protective Equipment (PPE) is an essential part of health and safety compliance in the workplace. At Cromwell, we understand the importance of keeping people safe, and stock a wide range of protective clothing, including safety helmets, respirators, waterproof clothing and much more. We' re proud to supply our selection of safety clothing and equipment, which has been carefully chosen from well-known brands like 3M(TM), Ansell(R), Boll?(R), and Skylotec(R).

Often referred to as Personal Protective Equipment (PPE), this kind of workwear is designed to protect the wearer against occupational hazards such as excessive heat, extreme weather and workplace hazards.

Protective clothing is crucial for ensuring that you and your colleagues as well as visiting personnel to your place of work are safe from potential and unavoidable hazards. Personal protective protection and clothing is often mandatory to keep your workplace compliant with health and safety regulations.

Personal protective clothing is used across a host of industries, in any work environment that is deemed to be potentially hazardous. Certain industries are required by health and safty regulations to ensure that all personnel on site are wearing the correct protective clothing for compliance.

Features and Benefits o Save money, time and the environment with high-power rechargeable batterieso High capacity charge retention - up to 1 years 3 x higher capacity than non-rechargeable alkaline batteries
