

Energy management app

Energy management app

Using Emporia's intuitive mobile app or web-based platform, you can automate, control, and manage connected devices like EV chargers, the Vue Home Energy Monitor, Smart Plugs, home battery systems, excess solar, smart appliances, and thermostats to optimize their performance.

The powerful mySigen app is the ultimate home energy management system. Designed to give you full visibility and control, the mySigen app provides real-time energy monitoring, enriched data graphs, and an array of advanced features. Stay informed and get the most out of our energy solutions at all times.

Download mySigen solar monitoring app now and enjoy a user-friendly interface, real-time home energy flow charts, and comprehensive energy data graphs for insights into your home energy production and consumption. Keep track and ensure the best system performance at all times.

The mySigen solar app offers detailed views and settings on every aspect of your installed system and devices. So you know whether it is performing at its best. Moreover, you can initiate a system self-check to detect any issues that may require attention.

If you have followed the Quick Start Guide and are still encountering issues, please contact Customer Service at 1-800-544-2444 and press 2. Due to high call volumes, we also recommend reviewing our FAQs for further assistance such as Creating an Account and Adding your Generator to the app.

The electrified home comes with a lot of devices to manage: Solar, EV & charger, heat pump, battery, and smart appliances. Zeroify connects all your devices in a single place with a great UI, bringing order to the vendor app madness. Zeroify builds on cloud-connected devices, meaning you don't need to spend money on an energy manager hardware and you can avoid effort and costs for local wiring. It's never been easier to save energy, money and CO2!
