

## Energy storage applications kiev

Ukraine has made significant progress in the field of solar photovoltaic technology, and with the increase in global demand for clean energy, Ukrainian solar photovoltaic manufacturers are rapidly expanding and emerging in the international market.

This article will provide an in-depth look at the top 15 solar energy storage manufacturers in Ukraine including Energy DK, DTEK, Ekotekhnik Ukraine, Leader NRG Ukraine LLC, Unisolar, AFORE Ukraine, Energy System Group (ESG), Intersolar Ukraine, Solar system, UNASOLAR to discuss their position in the industry, technological innovation and their contribution to the development of renewable ENERGY.

Energy DK is a leading integrator of renewable energy solutions in Ukraine, specializing in the implementation and installation of solar power stations, including autonomous power generation systems and grid-connected systems.

Energy DK's team of experts tailor solutions for customers, from helping to select the right equipment, to system design and installation to meet customers' individual energy needs and pursue cost-effective energy consumption strategies.

Company profile: DTEK is the largest private investor in Ukraine's energy sector and is headquartered in Kiev. As a diversified energy holding company, DTEK Group operates six businesses and DTEK academies covering solar, wind and thermal energy storage, natural gas and coal mining, energy trading, power distribution and grid management, and the development of a network of fast charging stations for electric vehicles.

The DTEK Group is committed to transforming its business into a greener, more efficient and technologically advanced enterprise by 2030, fully compliant with ESG principles, and aims to be carbon neutral by 2040.

Company profile: Ekotekhnik Ukraine was established in 2011 as the Ukrainian branch of the Czech company Ekotekhnik Czech, dedicated to providing comprehensive clean energy solutions for domestic and commercial customers.

Ekotekhnik Ukraine focuses on the construction of industrial solar power plants with the aim of protecting the environment and ensuring a stable supply of clean energy. Ekotekhnik Ukraine provides off-shelf solar power plant products and components, ensuring continuous technical support and service maintenance of solar power plant equipment throughout its life cycle.

Since 2016, Ekotekhnik Ukraine has expanded its services and started implementing solar power plant projects for private households. In cooperation with the JSC Gas Bank of Ukraine,

# Energy storage applications kiev

Ekotekhnika Ukraine participated in the development of the "Eco-energy" program and obtained certification for the construction and maintenance of solar power plants for private households.

As an experienced team of professionals in the field of solar energy, "Ekotekhnika Ukraine" has built more than 3,500 solar power stations in Ukraine, with capacities ranging from 3 kW to 15 MW.

**Company profile:** Leader NRG Ukraine LLC has been specialized in the installation and maintenance of solar power plants throughout Ukraine for many years. The company has a solar power plant design, maintenance and installation department, as well as operating an online store offering solar panels, batteries, inverters, controllers and other accessories from the world's leading manufacturers at affordable prices.

Leader NRG Ukraine LLC has installed more than 15,000 solar panels throughout Ukraine, providing customers with affordable electricity and actively contributing to ecological and environmental protection.
