

Energy storage battery 13 kWh

Energy storage battery 13 kWh

Canadian Solar EP Cube is a cutting-edge, all-in-one energy storage solution designed for residential use. It offers unparalleled flexibility with stackable lithium iron phosphate (LiFePO₄) battery modules, allowing users to customize the system's capacity from 6.6 kWh to 19.9 kWh. Compatible with both existing and new photovoltaic (PV) systems, the EP Cube is easy to install and features real-time energy monitoring, automatic firmware updates, and seamless backup power during outages.

With advanced features like a hybrid inverter, 16A DC PV input, and compatibility with 7.4 kW EV chargers, the EP Cube ensures efficient energy management and substantial cost savings. Its durable, IP67-rated design and 10-year warranty make it one of the safest, most reliable storage solutions available today. Whether for self-consumption, time-of-use, or backup modes, the EP Cube is designed to meet diverse energy needs while reducing carbon footprints.
