

Energy storage for backup power islamabad

Energy storage for backup power islamabad

Are you tired of fluctuating power and unpredictable energy bills? Terranova Energy offers state-of-the-art power storage solutions to transform your energy management. Our team not only helps you in purchasing the right batteries but also install them for a fully functional off-grid and hybrid solar power system.

Terranova Energy's power storage solutions are more than just batteries; they are the key to a resilient energy future. Now take control of your energy usage, storing excess power during the day to enjoy uninterrupted electricity at night.

Our systems have a substantial capacity for saving energy, reducing your bills, and even achieving zero bills with proper usage. Terranova offers an array of top-quality batteries, from Tall Tubular to Lithium Ion, including trusted brands like Phoenix, Fronius, Exide, Osaka, Volta, and Narada. These systems come with reliable warranties, ensuring your investment in energy storage is backed by peace of mind.

Terranova Energy, a project of Oslo Power, is committed to delivering premium solar energy solutions across Pakistan, ensuring sustainability and innovative technology for a greener future.

2. Seismic racks for both 48V and high voltage system are designed to meet Zone 4 requirement, e.g. the Uniform Building Code (UBC), or Bellcore Network Equipment-Building System (NEBS) requirement, Telecordia standard.

3. Vertical battery racks are designed for both tubular flooded and gel batteries. The racks comply with IEEE693, NEBS, Telecordia, UBC standards for substations, Telecom, Switchgear and UPS applications.

Narada, established in 1994 in Hangzhou/China, has become one of the leading battery manufacturers and global battery suppliers of the world. The main business is the development, manufacturing, sales and service of communication backup, motive power and renewable energy storage batteries and accessories as also their system integration.
