Energy storage solutions sofia

RE-Source Southeast is the largest event dedicated to corporate sourcing of renewable energy in Southeast Europe. It brings together industrial and corporate consumers, project developers, electricity traders and renewable power producers.

The 2024 event will zoom in on the latest trends in power purchase agreements (PPAs), electricity trading, regional market updates, ESG strategies and corporate sustainability policies, decarbonisation strategies in different industries, energy storage market uptake, financing terms for renewable energy projects, and more.

The event is organized by RE-Source Hub Bulgaria - the Association for Production, Storage and Trading of Electricity (APSTE) and the Bulgarian Wind Energy Association (BGWEA), with the kind support of RE-Source Platform, the leading European forum for corporate use of renewable energy.
