

## Enphase encharge 10 price drop

Enphase encharge 10 price drop

If this is true and not a web site glitch, then installer prices are event cheaper! This puts Enphase in a very competitive spot against Tesla's PowerWall 2 or SolarEdge. Now i'm just hoping/waiting for the IQ8's to magically appear on their website. :)

The Enphase Encharge 10(TM) battery is reliable, smart, simple, and safe. It provides the lowest lifetime energy costs with backup capability for both new and retrofit solar customers. As an installer, you can quickly design the right system size to meet the needs of the homeowner. The Encharge 10 all-in-one AC-coupled storage system provides a total usable energy capacity of 10.5 kWh. It features twelve embedded grid-forming microinverters that provide great flexibility in starting small and adding incremental capacity.

This item cannot ship UPS Ground due to its weight. Please select the "FREIGHT SHIPPING QUOTE ONLY" option at checkout. Once we process your order, we will contact you with the shipping options. For questions, please contact us at 800-942-2424 ext 1.
