

FLEX Rechargeable Li-Ion Battery Pack 18V

FLEX Rechargeable Li-Ion Battery Pack 18V

The product ordered from our supplier and we expect it to arrive any moment. The delivery time/date shown is an indication. Please contact our customer service for the exact delivery time.

Choose convenience, ease, and environmental friendliness by picking up your order at a nearby UPS pick-up point. You decide when to pick up your order there. Orders over EUR200 are delivered for free; for orders below that, you only pay EUR14.95.

Within 7 days after confirmation of your product, we will refund the purchase price to the same bank account number used during payment. Did you pay with a gift voucher? You will receive the amount back as a voucher.

Have you ordered paint and not satisfied with the color? Our experienced color makers carefully mix the paint with the utmost care. Unfortunately, it is not possible to return customized paint.

The FLEX AP 18.0 / 5.0 is a replacement or spare Li-Ion battery pack for the FLEX machines with a voltage of 18 volts and a very high capacity of 5 amperes. This spare battery is very high quality and has an integrated charge / discharge protection with a charge status display. In addition, the battery is protected against both dust and splash water, and the special Electronic Management System (EMS) provides extra protection for the battery pack to extend the life and increases efficiency.

With an extra fully charged battery, you will always be well prepared with the FLEX polisher and a delay in the work process will no longer be included. In addition, the built-in Electronic Management System (EMS) also provides extra protection.

Working wireless means a lot more freedom of movement and you will not be bothered by electricity cables. That makes the jobs a lot safer. With well-charged batteries you can continue working for hours without your tools giving up. Because the FLEX battery pack is light and compact, it also takes up very little space and fits easily into any suitcase when not in use.
