

First solar marshall islands

[[pacificdata](#)] ([pacificdata](#)) - the Pacific Data Hub - is the central repository of open data and knowledge products about the Pacific region. Anyone can access the public data on the Pacific Data Hub. You are encouraged to search, reuse and share the data on [pacificdata](#).

The Pacific Data Hub holds a large and diverse collection of data, data insights, publications, and knowledge products on the Pacific across key sectors, including population statistics, fisheries, geoscience, agriculture, aquaculture, energy, education, human rights, climate change, and oceans, and it continues to grow.

While the intention is for the Pacific Data Hub to become a multi-stakeholder-owned and managed platform, it is currently a product of the Pacific Community (SPC), and as such is governed by SPC's internal documents.

The Republic of the Marshall Islands (RMI) Outer Islands' Solar Electrification Programme is Government-owned and operated through the Ministry of Resources and Development (R&D). The operation and maintenance of this programme is carried out by the Marshalls Energy Company (MEC) under a Memorandum of Understanding (MOU) between Government (R&D) and MEC.

? The supply and installation of six school systems (including connection to some health clinics) under the REP-5 programme; with six more schools or clinics) proposed under the North-REP program. The schools pay the utility for the electricity they use but an MOU between the schools and the Marshall Energy Company (MEC) states that the schools are responsible for replacement of equipment.
