## Flow batteries cape town

EcoFlow, a leading global sustainable energy solutions company, is thrilled to announce the opening of its first showroom in Africa, located at the Canal Walk Shopping Centre in Cape Town, South Africa.

The opening of the EcoFlow showroom marks an important milestone for South African users. "We are excited to bring our industry-leading products to South Africa and provide users with reliable energy sources and sustainable energy solutions," said Joy Wu, Head of LAMEA & APAC at EcoFlow. "The showroom serves as a dedicated platform for users to experience our energy solutions firsthand."

The groundbreaking DELTA 2 sets a new standard for home energy storage. With expandable capacity from 1kWh to 3kWh and a total rated output of 1800W (X-boost 2400W), DELTA 2 can power 90% of household appliances for hours, providing peace of mind during power outages. Its advanced X-Stream technology, including the ability to charge in just 80 minutes, makes it a reliable and efficient solution for homes and small businesses. Equipped with LFP batteries, the DELTA 2 promises 3,000 battery cycles and can be used for almost 10 years.

RIVER 2 (<https://apo-opa /471BFjV>) and RIVER 2 Max offer unparalleled portability and performance for home power backup, outdoor enthusiasts and adventurers. Using the same X-Stream technology as DELTA 2, RIVER 2 and RIVER 2 Max can be fully charged in an hour. Thanks to LFP batteries, both can give you a decade of daily use. Weighing in at just 3.5kg and 6.1kg respectively, these lightweight powerhouses provide on-the-go power solutions wherever you need it. The 256Wh capacity of the RIVER 2 can fully charge an iPhone up to 19 times, while the RIVER 2 Max doubles this capacity.

Power Kits are the world's first integrated, plug-and-play power solutions designed especially for off-grid homes and RVs. Giving you an expandable capacity of up to 15kWh and 3600W Max AC output, Power Kits can basically power most of the essential appliances for days. Moreover, multiple methods of charging using a combination of AC, vehicle alternator, solar panels and our Smart Generator keep you with a stable supply of electricity.

By entering your mobile phone number and then confirming sign-up here, you consent to receive marketing text messages (e.g., promos, cart reminders) from EcoFlow at the number provided, including messages sent by autodialer. Standard message & data rates may apply. The maximum frequency of messages will be limited to X times per week.
