

Fox K-Series 10kW Hybrid Single-Phase

Fox K-Series 10kW Hybrid Single-Phase

Full of advanced features and compatible with the Fox high-voltage battery storage range, the Fox K-Series is a groundbreaking solar inverter designed for large scale, single-phase Solar PV arrays.

It is important to understand that this is a hybrid solar PV inverter and battery storage controller. This means it needs to be sized just like a regular inverter would be and, if it is being retrofitted, will replace the existing inverter.

The Fox K-Series 10kW Hybrid Inverter is designed to be easy to install to help save you time on installation. Flexible configuration, plug and play set-up, built-in fuse protection.

Inverter can be installed in parallel with up to 10x inverters. This means it can work in harmony, as one large system, if more than one inverter is required. Contact us for more information.

Maximum flexibility in system design is achieved with the inverters innovative SuperFlex Design. The characteristics of this inverter allows for a quick and easy install which can be carried out indoors or outdoors.

Maintenance is user-friendly thanks to the SnapINverter mounting design. The Fronius Primo 3.6kW Light comes with the option of installing an additional interface card allowing system owners to connect to the internet monitoring system. This can be done through any internet ready device anywhere around the world, giving system owners complete visibility and control.

Note to end users: Can end-users purchase this product to save money on the cost of a replacement inverter? Yes, of course! Simply purchase the inverter and arrange for a local qualified electrician to install the unit for you (should be a 1-2 hour call-out). By sourcing the inverter yourself, you can make a huge saving on the prices quoted by installation companies for supply and fit services.

The SOLiC Wireless is an easily installed Solar Immersion Controller, that comes complete and ready to fit. In simple terms it works like a high powered, automatic controlled, variable dimmer switch, much like a you see on lights bulbs. This offers only the power you would have exported to, typically, an immersion element, giving the household a free hot water tank most days of the year.

The market leading high-voltage SolaX Triple Power 5.8kWh SLAVE battery from SolaX/Triple Power is compatible with the full range of SolaX High Voltage hybrid inverters and AC chargers.

The all new Solis 1.5kW Mini S6 Series grid-tie solar inverter has a compact and lightweight design for easy installation. It is fan-less and therefore produces minimal noise (less than 20 dBA.)
