GNG is proud to have offset 500 million pounds of Carbon Emissions through our Greener Life program. With more than 25 years of commitment to sustainability, GNG is a leader in protecting the environment.

The Alliance Theatre's beloved production A Christmas Carol returns to The Coca-Cola Stage with its stunning new adaptation, featuring a brilliantly reimagined set design and striking new costumes.

These days, so many people like to talk about going green and what it means to be sustainable. But that can get a little confusing. What's the difference between a ton and a metric ton? What are Carbon Offsets, and what does it mean to retire them? And why is carbon in most of these words?
