Global power battery

Damages and issues Please inspect your order upon reception and contact us immediately if the item is defective, damaged or if you receive the wrong item, so that we can evaluate the issue and make it right.

Exceptions / non-returnable items Certain types of items cannot be returned, like perishable goods (such as food, flowers, or plants), custom products (such as special orders or personalized items), and personal care goods (such as beauty products). We also do not accept returns for hazardous materials, flammable liquids, or gases. Please get in touch if you have questions or concerns about your specific item. Unfortunately, we cannot accept returns on sale items or gift cards.

Refunds We will notify you once we've received and inspected your return, and let you know if the refund was approved or not. If approved, you'll be automatically refunded on your original payment method. Please remember it can take some time for your bank or credit card company to process and post the refund too.

Our mission is to revolutionize power solutions, providing innovative and sustainable technologies that safeguard business and communities against disruptions. We are dedicated to delivering reliable, resilient, and eco-friendly energy solutions.

Global Power Supply (GPS) is a full service provider of new and used power systems including new and used diesel generators, natural gas generators, custom genset enclosures, UPS power systems, automatic transfer switches (ATS), and electrical switchgear.

We stock new and used industrial prime and standby generators from diverse manufacturers like Caterpillar, Cummins, MTU Onsite Energy, Hipower, Mesa Solutions, Kohler, Airman ANA, Arrow, Generac, Blue Star and more.

We rent and sell UPS backup systems, UPS Trailer Systems, and indoor UPS systems. Our in-stock inventory is maintained at our Nevada warehouse. Browse our fully tested and maintained inventory by kVA; Toshiba, Eaton, Mitsubishi, 360 Power Quality, Riello and more.

Global Power supports and installs power systems nationwide through our project management programs and our certified project management professionals. From load testing, engineering review to project management and logistics services, GPS can provide a single source solution for all your critical power needs.

Engineering services for complex industrial projects. Electrical studies built to determine safe and effective power applications. From arc flash studies to power system short circuit and microgrid applications.

Turnkey solutions including assistance with all permitting, engineering reviews, site surveys, all necessary site

Global power battery

electrical preparation and construction, and of course installation and startup of the backup power system.

These turnkey modular battery systems are tailored to fit in distributed energy environments or microgrids with variable footprints, unique on-site requirements, scalability and large uptime needs.

Microgrids optimize your energy operations with cost-effective, sustainable multi-resource power solutions that include renewable energy sources with new emerging technologies in combination with old methods that can significantly reduce emissions and provide resilience.
