

Golf cart battery cables

Golf cart battery cables

Enjoy a smooth and uninterrupted round with a golf trolley battery from Affordable Golf. Our golf trolley batteries and chargers come in various sizes to ensure compatibility with all major brands and models. Whether you're looking for a replacement battery or upgrading your existing one, our high-quality options will effortlessly power your electric trolley.

Say goodbye to frequent replacements and welcome uninterrupted rounds. With our high-performance lithium golf trolley batteries for sale, you'll spend less time worrying about charging and more time perfecting your swing.

Experience speed and endurance with our lithium batteries for golf trolleys. Designed for the modern golfer, these power-packed units recharge in less than five hours, ensuring you're always ready for that spontaneous round.

But it's not just about quick charging -- these electric golf cart batteries also boast an impressive range that easily covers 18, 27, or even 36 holes on a single charge. Imagine confidently cruising through the entire course without a single worry about losing power.

Our state-of-the-art golf cart battery range redefines convenience on the course. The latest models boast a revolutionary design that's not only more compact and lightweight than ever before but also packs a serious power punch.

Affordable Golf is Scotland's leading independent golf retailer and one of the UK's leading online golf stores. We stock one of the largest ranges of golf products from reputable brands, including PING, adidas, Under Armour and more.
