## Greentec hybrid batteries

We are proudly servicing Hybrid cars in Dallas, Texas, and surrounding areas. Greentec has a combined 35 years of general automotive experience, so you can relax knowing we are going to take care of your Hybrid vehicle. We go beyond just installing your battery. We make sure your questions are answered, and that you're getting the best price for the highest quality product.

GreenTec was great to work with! I was surprised they would do a mobile installation in Virginia coming several hours from Charlotte, for a reasonable fee. Customer support was helpful, service was next business day, and the service tech Johnny was friendly and helpful. All around, a surprisingly good experience.

Bruce McGraw in Streamwood IL recently worked on my 2007 Civic hybrid - and brought it back to life. He was knowledgeable, courteous, honest, helpful and professional. For electric car battery problems, I highly recommend the Streamwood office - and Bruce.

When my 2015 Ford CMax Hybrid went dead I took it to the Goodlettsville shop near Nashville by virtue of a rollback truck. They did their diagnostics and told me that the main propulsion battery was still good and recommended that I replace the 12 volt battery. This was installed at their shop and they sent me on their way. They were knowledgeable, friendly, efficient and honest. What more could you ask for. Awesome experience!

Hands down, no doubt about it, the best place to get a Hybrid Battery replaced!!! I did my research, I spent a lot of time and I finally decided to replace my hybrid batteries in 2 Prius cars that I own... I worked with Austin and Joron they are both absolutely amazing people!! Talk about Customer Service A+A+A+A+A!! 100% Satisfaction Guaranteed!! Greentec Hybrid & EV has the Best Prices, customer Service & warranty!!! Go with them you will not be disappointed!!! Thank you so much!!!
