Growatt infinity 1300 depth

INFINITY 1300 lets you work anywhere and complete any project since its 1382Wh capacity and 1800W output are capable of powering even your heavy-duty devices. It's perfect for off-grid living, camping, tailgate parties, emergency preparedness, and more.

With less than 20ms Emergency Power Supply (EPS), you never have to worry about losing power at home or losing progress on important work in the event of a power failure. Everything from lights in highly-used rooms and fridges to medical devices, computers, and more won't fail.

INFINITY 1300 emerges as a winner among solar generators to rapidly gain unlimited power outdoors and effectively cut downtime for emergencies. Equipped with a built-in MPPT controller, you can replenish power more efficiently with solar panels, Achieving a full charge in 2.5 hours.

INFINITY 1300 has 14 outputs for almost 95% of electronic devices. With AC outlets, DC outlets, USB A ports, USB C ports, and a wireless charging pad, you can easily power home appliances and charge portable electronics simultaneously.

In order to have the heat dissipation function we envisaged, we design powerful cooling fans to accomplish this purpose. INFINITY 1300 has excellent airflow thanks to the striped design of the vents, which also gives it a distinctive appearance.
