

High capacity portable power bank

High capacity portable power bank

High-capacity power banks are a godsend when you're out and about away from a power outlet, and desperately need to charge your devices. If you're into outdoor activities like camping or live in an area that's frequently affected by hurricanes, having a large-capacity power bank on hand is very useful for keeping all your gadgets charged. We'd consider anything above 20,000mAh as a good place to start.

Modern high-capacity power banks are also quite portable. It definitely won't be as slim as regular best portable chargers, but most are compact enough to fit snugly in a handbag or the pocket of your cargo shorts. You should really check your needs first and the type of devices you'll need to charge. Anker makes some of the best high-capacity power banks and the Anker Prime 27,650mAh Power Bank has been our favorite for a while, for good reason. There are plenty more options to choose from, depending on what level of features and portability you need.

The UGREEN Nexode 25000mAh offers similar features to Anker's Prime power banks, but at a lower price. It can deliver up to 140W over a single USB-C port, and the TFT display shows real-time stats of charging speed and remaining charge.

Anker is one of the biggest names in the charging accessory business, and it makes some of the best power banks today. The Anker Prime 27,650mAh Power Bank (250W) is a significant upgrade from previous generations, with 27,650mAh in a very compact package. But don't mistake its small size for small power. It can pump out up to 250W of juice and recharge at a whopping 170W using two USB-C cables and the right adapters. This means this power bank can charge phones, tablets, and power-hungry laptops without any trouble.

When using a single USB-C port, the Prime 27,650mAh bank can deliver up to 140W of power using the PD 3.1 standard. According to Anker, this is fast enough to charge a 16-inch MacBook Pro up to 50% in just 28 minutes. If you have a Samsung device, this power bank also supports Samsung Super Fast Charging 2.0. One of the unique features of this power bank is that it lets you monitor the charging status via an app, thanks to built-in Bluetooth. This way, you don't have to keep coming to the bank to see if it's fully charged. You can even locate it via sound alerts.
