

Hitachi battery energy storage system

Hitachi battery energy storage system

The Faroe Islands are isolated from their nearest neighbors by hundreds of kilometers. Nevertheless, this small nation is setting an example for the entire world with its progress towards reaching an audacious goal: 100% sustainable energy by 2030.

Grid-forming BESS designed to ensure grid stability and reliability, seamless renewable integration while reducing operating costs and complying with main grid codes, having more than 300 references installed.

Hitachi Energy BESS is installed in an urban environment to supply power to approximately 200 apartments in Copenhagen at the time of the day when the power demand is at its peak.

Samso Island and seasonal vacation demand to power island marina. A Photovoltaic (PV) system with 60 kW peak capacity has been installed on Ballen marina to make it energy-independent.
