Home energy storage sierra leone

Aptech Africa is thrilled to announce the successful installation of a 50kWp solar power system in Djibouti. Djibouti, with its abundant sunlight and growing energy demands, presents a prime opportunity

As of recent statistics, access to electricity in South Sudan is staggeringly low, with only about 13% of the population having access to grid-connected power. This figure is even lower

In the ever-evolving landscape of renewable energy, solar power stands out as a beacon of hope for a sustainable future. With its abundant sunlight, India holds immense potential for solar

We offer you all services around energy production, energy storage, backup systems, energy transport via overhead lines and underground cables as well as the development of supply concepts for private persons, organisations, companies and small and medium-sized cities.

Our goal is the broad implementation of modern and efficient energy principles with maximum integration of renewable energy sources. We want to contribute to making society more friendly towards our common home, planet earth.
