Home solar system ghana

Global warming of 1.1 degrees Celsius is leading to unprecedented climate changes, from rising sea levels to more frequent extreme weather events, impacting ecosystems and communities worldwide.

Since our inception in 2009, we've been committed to renewable energy solutions, providing high-quality solar equipment and services to thousands of homes and businesses. Together, we've helped save massive CO2 emissions.

Our commitment to sustainable energy solutions is evident in our industry-leading manufacturing technology and continuous investment in raising the bar for green energy initiatives in Ghana.

We set out with a mission to make renewable energy accessible. We found there was a need to do things differently by advancing the know-how to realise our ambition. So we evolved with innovative ways of realising energy access through knowledge transfer.

As a women-led social enterprise, Power Sisters has affirmed high-level support for advancing gender equality on the road to ensuring universal energy access. Over 80 per cent of WIRE's board is comprised of women leaders from the finance, technology and renewable energy sectors.

We design and supply top-tier solar energy systems, focusing on reducing energy usage and fostering sustainable electricity generation. Our services extend from sophisticated solar PV systems for homes and businesses to dynamic public space lighting, ensuring every installation meets the highest standards of quality and efficiency.

Cut your electricity bills and make your home more energy independent. Explore our solar installation packages, including 10 solar panels for ₵5,700, or ₵10,500 with a battery.

Upgrade to a heat pump. Get a bespoke heat pump system designed around your home and save ₵7,500 with the Boiler Upgrade Scheme. Period properties, retrofits and self-builds all covered.

Switch to us and have all the power you use matched back to 100% renewable electricity from our community of over 2,500 independent generators. Including smart EV tariffs, for lower cost charging.

Good Energy's latest rating from Citizen's Advice is 2.9 out of 5 stars. This rating is worked out across three different categories, including contact waiting times(3*), complaints (2*) and customer commitments (3*).

No supplier ranked by Citizen's Advice had an average rating higher than 3.65. You can read more about our rating on the Citizen's Advice website, including how scores are calculated.
