Hoppecke batteries distributors

Numax Batteries are a UK brand supplying high quality batteries for the budget to mid price point for the UK and Ireland. Founded in 1997. Formerly known as Snowdon Batteries, the company changed its name in order to broaden appeal across Europe. Numax are now one of the biggest battery names delivering car, commercial, leisure, marine, mobility, motorbike and industrial batteries all across Europe and the world.

The NUMAX range of heavy-duty Premium HGV batteries are built to the highest specifications, so they are reliable, durable, and able to withstand the gruelling workload placed on them by modern day trucks and other commercial vehicles at work. The NUMAX Silver Premium Commercial Batteries range covers all types of car, trucks, HGVs, and commercial vehicles such as tractors, JCBs and other agricultural machinery. These batteries have an increased ability for higher cold start performance. They also have reinforced handles.

Since 1927, the family company has been developing and producing in Germany, and thanks to its leading research and development activities, it has all reliable and innovative storage technologies in its product portfolio.

Electric energy is required everywhere and in ever more applications. In this world, where everything becomes electrical, HOPPECKE is your partner and expert. We understand our customers and with our energy solutions, designed for safety and availability,

From the comprehensive product programme of batteries and cells to complete energy systems with the most modern charging technology, monitoring units and engineering to consumption dependent energy billing - our portfolio always contains the suitable product tailored to the individual customer requirements.

With the development of marketable, forward-looking energy storage solutions, HOPPECKE makes an important contribution to solve the societal challenges that result from the implementation of the global climate protection goals.

With its headquarters in Brilon-Hoppecke and 23 subsidiaries, representative offices, partners and distributors as well as production and assembly facilities worldwide, the HOPPECKE Group has more than 2,080 employees and generates turnover of over EUR430 million.

HOPPECKE, a renowned German company owned by the Zoellner family, has specialized in electric energy production since its inception in 1927. Boasting 21 subsidiaries, representatives, partners, offices, distributors, and production and assembly facilities worldwide, the company employs over 2,000 people and generates a turnover of up to EUR400 million. HOPPECKE is dedicated to addressing societal challenges arising from the implementation of global climate protection goals by delivering innovative energy solutions.

Hoppecke batteries distributors

As the world seeks dependable and sustainable energy sources, HOPPECKE offers long-lasting solutions to meet everyone's power demands. With the ever-increasing need for electricity in households, offices, markets, farms, and other industries, HOPPECKE takes on the responsibility of providing high-quality products tailored to these requirements.

Megapower has a vision for renewable energy and a sustainable future. We focus on developing solar power projects for the commercial sector. We assess, design, and build custom solar power projects according to the specific needs of our clients.
